

Nice weather with moderate temperatures made for easy winter camping. Pat and Val just used an unheated 3 season tent. Two tents with wood stoves accommodated Chris and Selina and Roger and Di and Judy plus two dogs, Spirit and Holly. The main daytime activity was snowshoeing . Chris demonstrated how to make a Swedish torch with a hand saw log and some birch bark. In the evening everyone could fit in the big 10 man army tent for socializing. Cheryl and Story snowshoed out for a visit and an evening campfire. Clarke was recovering from the flu but also snowshoed in for a visit.
